## SUMMARY

Experienced Frontend Developer with a demonstrated history of working in the information technology and services industry. Skilled in Computer Science, Web Design, Mobile Application Development and System Deployment. Strong engineering professional graduated from Hacktiv8 Indonesia.

---

## EXPERIENCE

### Full Stack Developer

i03 Pte Ltd

October 2024 - Present, Singapore · Remote

- Managed multiple projects with diverse tech stacks for international clients at Sari Baut Net.
- Successfully delivered projects within tight timelines, showcasing strong time management skills.
- Collaborated with crossfunctional teams to ensure seamless project execution and client satisfaction.
- Enhanced user experience by designing and implementing intuitive web applications and mobile applications for iOS and Android platforms.

### Instructor

Hacktiv8 Indonesia

April 2022 - October 2024, Jakarta, Indonesia

- Responsible for planning, organizing, teaching, monitoring, and assessing student progress for our Fullstack Javascript classes.
- Tested and evaluated students on materials presented in workshops and classes.
- Increased student participation via engaging lectures and assignments.
- Promoted a positive learning environment by establishing clear expectations and maintaining consistent classroom management techniques.

### Mobile Developer

CONSAP PTE LTD

April 2021 - April 2022, Singapore · Remote

- Responsible for developing mobile apps
- Enhanced user experience by designing and implementing intuitive mobile applications for iOS and Android platforms.
- Worked closely with UX/UI designers to translate wireframes into functional prototypes, ensuring consistent visual design across all platform versions.
- Evaluated emerging technologies and trends to stay current in the everevolving landscape of mobile app development.

### Frontend Developer

PT. CUMI Teknologi Global Perkasa

May 2020 - April 2021, Jakarta, Indonesia

- Responsible for developing new website and mobile apps.
- Working as FullStack developer using React.js, TypeScript, and GraphQL.
- Reviewed code, debugged problems, and corrected issues.
- Integrated third-party APIs to enhance functionality and improve overall user experience on web platforms.
- Reduced page load times by optimizing frontend assets such as JavaScript files, stylesheets, and images.

---
